

# CITB ONSITE EXPERIENCE HUBS

**CITB's Onsite Experience hubs deliver fully funded pre-employment training programmes to provide you with quality, pre-trained and carded, employment and site-ready candidates to fill your vacancies, removing much of the risk from the recruitment process.**

Your local Onsite Experience hub will work with you to provide potential candidates with a site-based work placement, an 'onsite experience', which you can use as a no-obligation work trial to enable you to observe the personal and technical attributes of individuals before you recruit them. You can provide work placements for as many candidates as you like before deciding who is the best fit for your vacancy or Apprenticeship.

Contact your nearest hub to find out more about how they can help you to fill your Construction vacancies.
